

**Contract Title:** Deepening of Well 9

**Description:**

Well 22 is the next new well for the District. As the population increases, the demand for water also increases; thereby requiring a new well. Well 22 will be located next to Well 9.

The Deepening of Well 9 contract will deepen the existing well by 1,118 feet to determine the characteristics of the deep aquifer and water quality. The work is scheduled to commence in September and be completed by early 2010.

With the data learned from the deepened Well 9, the District will decide if it is to drill the new Well 22 in 2010.

**Contractor:**

Nicholson Drilling of Port Orchard

**Contract Cost:**

\$116,604.91 Sales tax is included
