

A Resolution of the Board of Commissioners (Resolution 872) created a policy for reduced flat rate charges for accounts not taking water, commonly known as “snow-bird” accounts.

Snow-Bird Accounts Customers who own property that will be vacant for (4) months or more may request a reduced flat rate charge.

- a) To qualify for a reduced flat rate, a customer must apply in writing to the District office, be absent from the qualifying residence for a period of not less than four months, sign this statement that they understand the policy for receiving a reduced flat rate.
- b) Any customer who returns to active service status prior to four months absence will be charged the full flat rate from the time of the change to the reduced rate and in addition will be charged a \$50.00 service fee.
- c) Water service to the residence will be shut off and locked at the meter upon approval. Reconnecting of the service by other than District personnel will be subject to a tampering charge.

I understand the above information and wish to apply for a Snow-Bird rate on my service.
